## Issue Description

1. **IO (Investigating Officer) details are not showing** in the system when checking case details.
2. The "Action Taken" section also does not display the IO details correctly.
3. The fields related to IO information remain blank or hidden.

---

## Action Taken / Steps Performed

1. **Verified the issue** in the module where IO details should appear.
2. Found that the problem occurs because **Office Incharge and Superior details** were not properly linked to the **Police Station**.
3. **Modified the "Office Incharge" and "Superior Officer" dropdowns** to ensure they are fetched based on the selected **Police Station**.
4. Updated the **SHO (Station House Officer)** information to reflect the correct police station mapping.
5. After updating the SHO and related mapping:
   - Checked the IO details section again.
   - Confirmed that **IO fields are now displaying correctly**.
6. **Tested multiple records** to ensure consistent display of IO details.
7. **Issue resolved** — IO details are now showing properly in both the "Action Taken" and "IO Details" sections.
