1. **Try to Log In**
   - Go to the CRI-MAC login screen.
   - Enter your **username and old password**.
   - If the password has expired, you'll see a message like:
     "Your password has expired. Please change it before logging in."
2. **Click on 'Change Password' (if prompted)**
   - Some systems automatically give an option to change the password after this message.
   - If available, proceed with that option.
3. **If You're Not Given the Option:**
   - **Press** `Ctrl + Alt + Del` on the keyboard (if it's a Windows-based system).
   - Choose **"Change a password"**.
   - Enter:
     - Old password
     - New password
     - Confirm new password
4. **Password Requirements (Typical Rules)**
   - At least **8 characters long**
   - Include **uppercase**, **lowercase**, **numbers**, and **special characters**
   - Should **not** be the same as the previous few passwords
5. **Click OK / Submit**
   - If successful, you'll get a confirmation that the password was changed.
6. **Login Again**
   - Use your **new password** to log in to the CRI-MAC system.
7. **If Still Unable to Log In**
   - Contact your **system administrator** or **IT support**.
   - They may need to **reset the password** from the Active Directory or CRI-MAC server.
