Status	Completed
Resolution , Date and Time	05-03-2025

Issue: SYNC Problem in Thavalakuppam Police Station, Puducherry.

Description:

- Offline or online entry synchronization has **not been completed** for Thavalakuppam Police Station in Puducherry.
- As a result, the data entries are not being updated in the central system.

Steps Taken / Required Resolution:

1. The issue was identified as a **synchronization failure**—either due to network issues or missed scheduled syncs.
2. To resolve this, we need to **run a manual SYNC** for the specific police station.
3. The SYNC operation will be carried out **through the SYNC Server**, targeting Thavalakuppam PS separately.
4. Once the manual SYNC is initiated:
    - It may take some time for the entries to reflect properly in the system.
    - A stable network connection should be ensured throughout the process.

Note: Please verify the data after synchronization to confirm successful update.
