2. Ensure the Firewall is **turned OFF**.
3. Select **"Allow an app or feature through Windows Defender Firewall."**
4. Ensure that **CCTNS-related applications** (browser or client app) are **allowed** for both **Private** and **Public** networks.

### B. Verify IP Configuration

1. Open **Command Prompt** → type:
2. `ipconfig /all`
3. Check if the IP is **DHCP (Automatic)** or **Static (Manual)**.
4. If **Automatic**, configure it manually using your police station's network details.
