**No Impact on CCTNS Application During NDC Maintenance**

Dear Team,

With reference to the scheduled maintenance of the NDC Bhubaneswar Cloud Portal from 07/02/2026 (07:00 PM) to 09/02/2026 (07:00 AM), we have reviewed the impact on the CCTNS application and related services.

We would like to inform you that there will be **no impact on the functioning of the Virtual Machines and the CCTNS application** during the maintenance period. All VMs will remain in powered ON state and will continue to be accessible through RDP. The application services will function smoothly without any interruption.

The only limitation during this period is that access to the Cloud VM Control Panel (Cloud Portal) will not be available. Hence, administrative control of VMs through the Cloud Portal will be temporarily unavailable.

However, this will not affect the operational usage of the CCTNS application by Police Personnel and departments.

Accordingly, no service disruption is expected during the maintenance window.

This is for your kind information and suggestion, please.

Regards,
Infra & CCTNS Team .
