Revision History

Version	Date of Revision	Description of Change	Reason for Change	Affected Sections	Approved By
1.0	12-01-2026	Initial Version	Initial Version	All	

1. Introduction

This user manual provides detailed guidance on using the Ticket Management Tool. The application enables users to raise, track, and monitor CCTNS service – related issues efficiently through a structured ticketing process.

2. Purpose of the Tool

The Ticket Management Tool is designed to:

- Log user-reported issues in a standardized format
- Facilitate communication between users and administrators
- Track ticket status from creation to closure
- Maintain records for audit and reference purposes

3. Intended Users

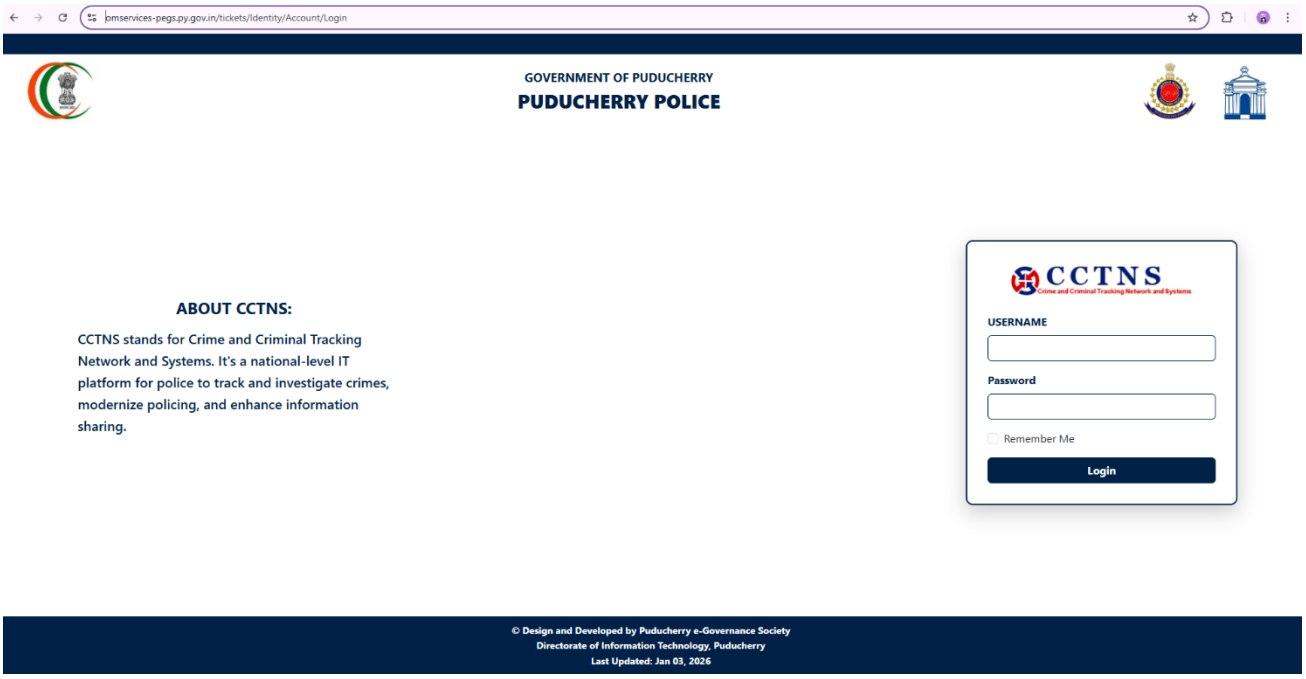
- End Users: **Police Station Users**

4. Access Ticket Management Tool Application

- To access the Ticket Management Tool application, open the following URL in any standard web browser (Mozilla Firefox, Google Chrome, etc.):

  https://omservices-pegs.py.gov.in/tickets

- Upon accessing the link, the **login page** will be displayed as shown below

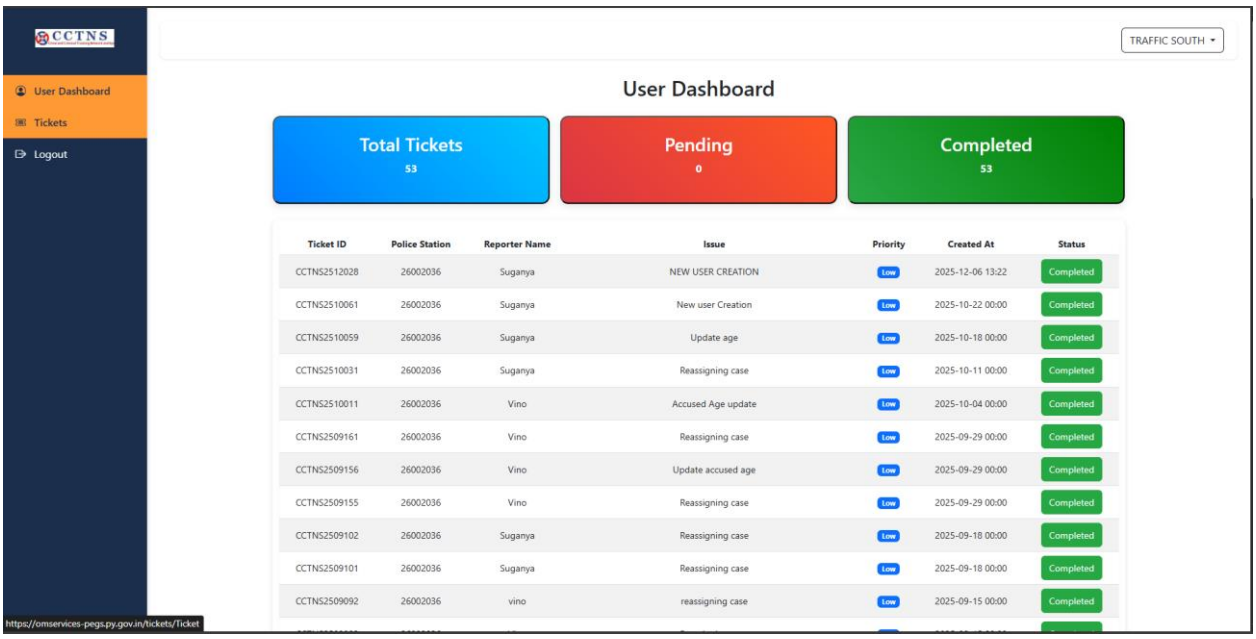


i. Steps to login
ii. Enter your **Username** and **password** which was given by the CCTNS- PeGS team.
iii. Click on the login button
iv. Upon successful authentication, the system redirects to the **User Dashboard**

5. User Dashboard Overview

The User Dashboard is the landing page after successful login. It provides a real time summary of all tickets raised by the user and allows quick access to tickets details and actions.

5.1. Dashboard Components



The dashboard screen contains the following key sections:

a) Summary Tiles

- **Total Tickets:** Displays the total number of tickets raised by the user
- **Pending:** Shows tickets that are awaiting action with CCTNS Support team
- **Completed:** Displays tickets that have been resolved and closed by the CCTNS Support team

b) **Ticket List** - The central section of the dashboard displays a tabular list of tickets with detailed information.

c) Navigation Menu

- User Dashboard: Returns to the main dashboard view
- Tickets: User to create and view tickets
- Logout: Safely exits the application

To raise a new ticket, click on the **Ticket** option available on the dashboard.

5.2. Ticket List Columns Description

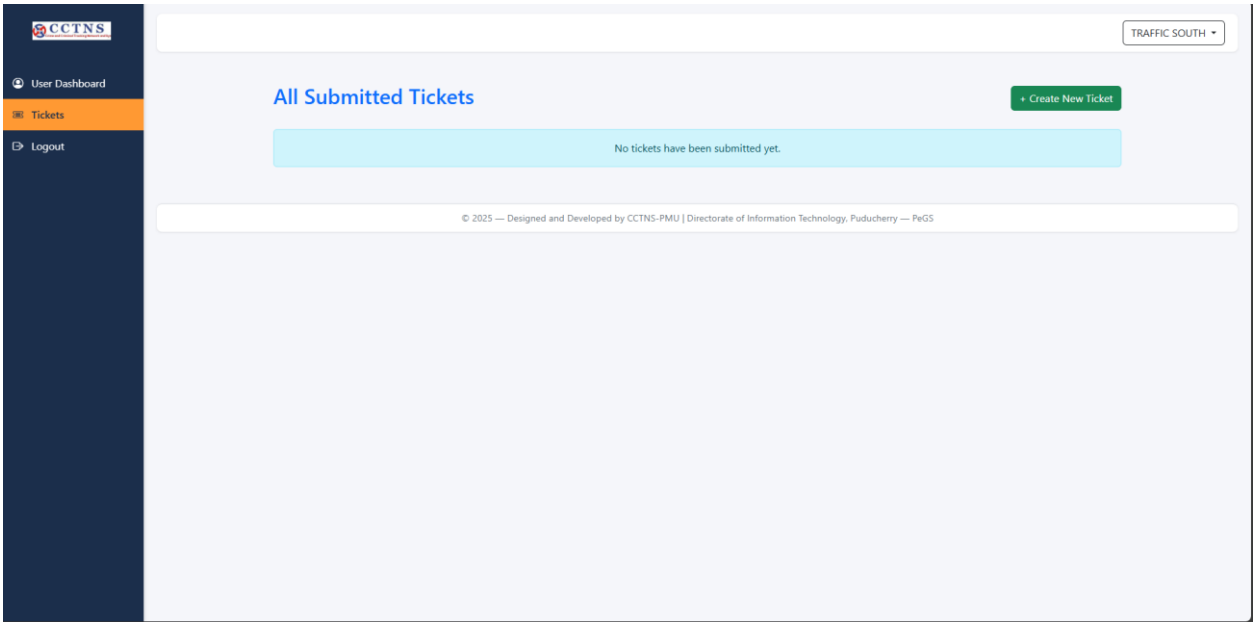
Ticket ID	System-generated unique ticket reference number
Police Station	Police Station Code
Reporter Name	Name of the user who created the ticket
Issue	Short description or category of the reported issue
Priority	Indicates urgency level (e.g., Low, Medium, High)
Created At	Date and time when the ticket was created
Status	Current ticket status (Pending/ Completed)

User can scroll through the list to view all submitted tickets. Completed tickets are clearly marked with a green **Completed** status label.

6. Create New Ticket

6.1. Navigation

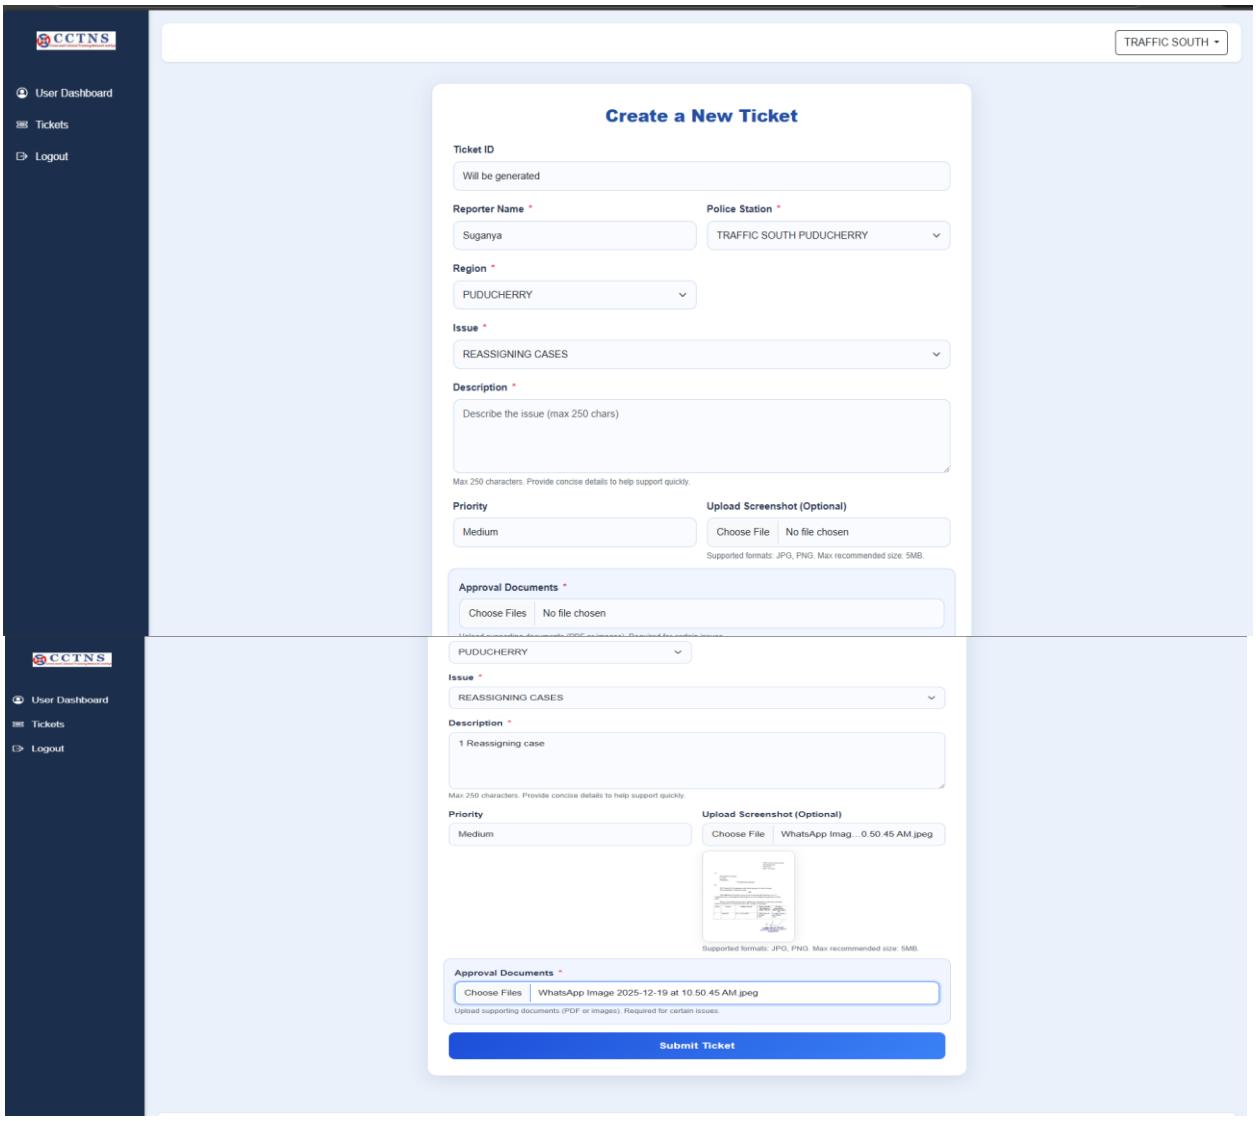
From the User Dashboard, Click **Tickets** -> **Create New Ticket**. The system opens the ***Create a New Ticket screen.***



6.2. Create New Ticket Screen Overview

This screen allows users to submit a new CCTNS related issue. Fields market with an asterisk (*) are mandatory.

6.3. Ticket Fields Description



Field Name	Type	Description
Ticket ID	Auto- Generated	System-generated after successful submission
Reporter Name *	Text Field	Name of the user raising the ticket
Police Station *	Dropdown	Select the relevant police station
Region *	Dropdown	Select the applicable region (e.g., Puducherry)
Issue *	Dropdown	Select the issue category (e.g., Reassigning Cases)
Description *	Text Area	Brief explanation of the issue (Maximum 250 characters)
Priority	Auto / Dropdown	Indicates urgency of the ticket (Low / Medium / High). Default value may be system-assigned

Upload Screenshot (Optional)	File Upload	Upload screenshots for reference (Supported formats: JPG, PNG; Max size: 5 MB)
Approval Documents *	File Upload	Upload approval or supporting documents (PDF / Image). Mandatory for certain issue types

Note: Screenshots help the support team understand the issue visually. Approval documents are mandatory

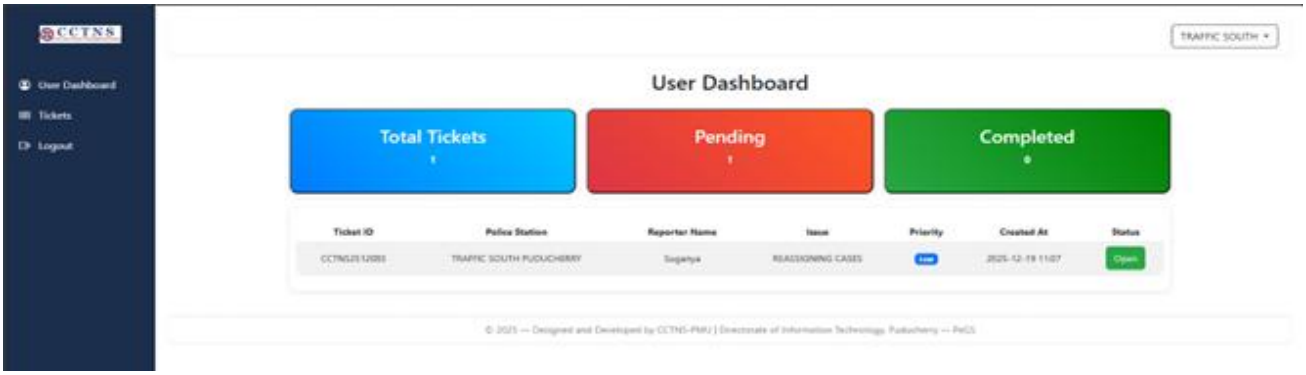
6.4. Submission Guidelines

- Ensure all mandatory fields marked with (*) are filled.
- Description must not exceed **250 characters**.
- Upload screenshots only in supported formats (JPG / PNG) with a maximum size of **5 MB**.
- Approval documents must be attached wherever required.
- Review the uploaded files before submission.

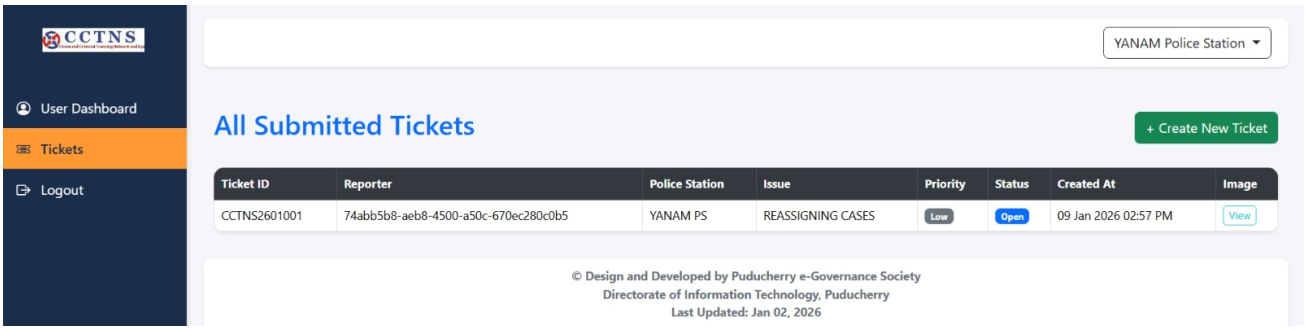
6.5. Submit Ticket

i. Review the entered information
ii. Click the Submit Button
iii. A Ticket ID is generated automatically
iv. The system redirects the user to the Dashboard, where the newly created ticket appears with its status.

7. Viewing Ticket Status



i. Click **Open** to view ticket details



7.1. All Submitted Tickets Screen

The **All Submitted Tickets** screen displays a consolidated list of all tickets raised by the user. This screen helps users track the progress and current status of each ticket.

8. Best Practices

- Always select the correct Police Station and Region.
- Provide a clear and concise issue description.
- Attach relevant screenshots or approval documents wherever applicable.
- Regularly monitor the dashboard for ticket updates.

9. Security & Access Control

- User credentials are confidential and must not be shared.
- Unauthorized access or misuse of the system is prohibited.

10. Support & Contact

For technical assistance or system-related queries, contact the designated system administrator or support team.
