- **Check Windows Firewall / Defender**

1. Open **Control Panel → Windows Defender Firewall**.
2. Check if the **Firewall is turned ON**.
   - If it is **turned OFF**.
3. Ensure that the CCTNS website (`https://cctnspolice.py.gov.in`) or related applications are **allowed through the firewall**.
   - Go to **Allow an app or feature through Windows Defender Firewall → Allow CCTNS-related applications** if listed.

- **Verify IP Configuration**

1. Open **Command Prompt** and type:
2. `ipconfig /all`
3. Check whether the **IP address is set automatically (DHCP)** or **manually**.
   - If it is **set automatically**, change it to **manual (static)** configuration.
4. Set the following details manually as per your station's network details:
   - **IP Address:** (Example: 10.160.XX.XX)
   - **Subnet Mask:** (Example: 255.255.255.0)
   - **Default Gateway:** (Example: 10.160.XX.1)
   - **Preferred DNS Server:** (As provided by NIC / Department IT)
   - **Alternate DNS Server:** (As backup DNS)
   - *(Use the official IP, Gateway, and DNS values assigned to your police station.)*
   -

- CCTNS Portal working successfully.
